Wallcovering

Browse our curated library of world-class mural style artwork and traditional repeat pattern designs and colors - only available through Level.

- High resolution, rights ready, royalty-free, and print ready artwork sized, scaled, and cropped to your specifications.
- Choose from a wide range of vinyls, PVC-free wallcoverings, and more on which your Level design can be printed.
- Tailor it! We offer near limitless ways to personalize your Level design, from simple custom color to digitally printed metallic & spot gloss effects and more.
- Have your own art? We offer contract printing of customer supplied and third-party artwork.

level

Wood Veneer

Level wood veneers introduce the natural beauty of real wood to our growing collection of surface and design solutions. From solid color tints and accent patterns to full wall murals, digitally printed wood veneers offer unparalleled creative opportunities.

REAL WOOD VENEER

- Available in Quarter Cut Silkwood, Quarter Cut White Oak, and Quarter Cut Walnut
- Installs Fast
- Flexible, Simply Moisten to Fold at Corners
- Book Match (Standard) / Slip & End Match (Available)
- Class A Fire Rated
- Great for Walls, Ceilings, & Furniture
- Can be Sequenced to Adjacent Panels & Doors
- Wood Veneer is supplied in 3 ft. x 10 ft. sheets, and the standard installation orientation is book-matched.
- Additional wood species and custom sheet sizes are available.
- **NOTE:**

  Actual production may vary in color and graining from the images shown. The growth marks and other variations of grain and figuring found in fine veneers are hallmarks of this beautiful and natural product.

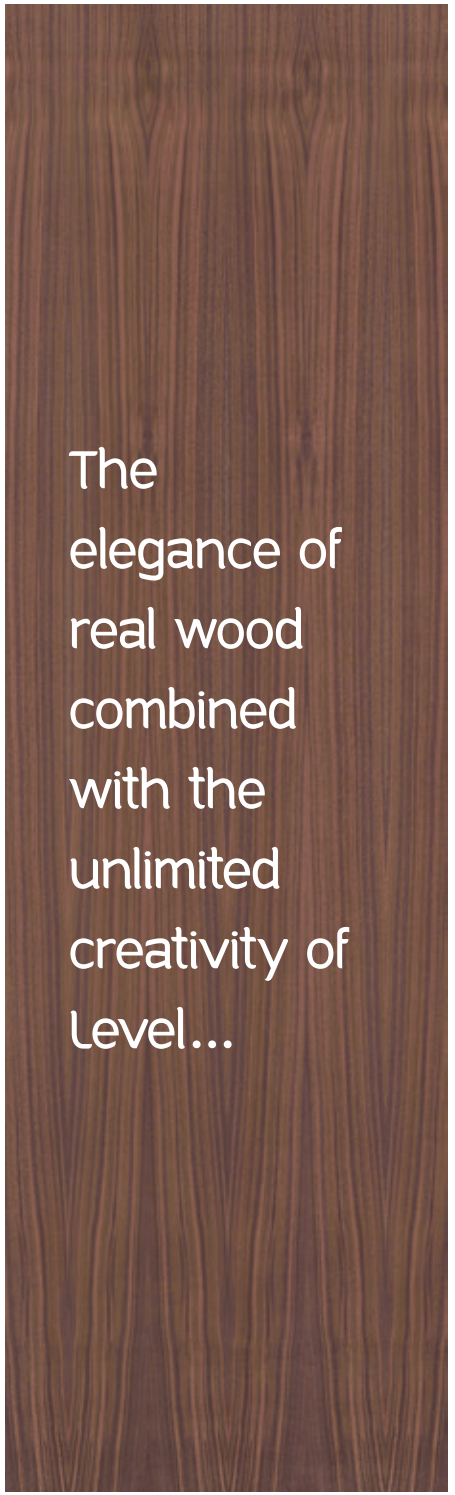
  Specifying real wood veneer as a custom base material can alter the appearance of a design's colors and overall characteristics.

  Metallic effects are not available on real wood veneer.

  Areas in which real wood veneer will be installed must be environmentally controlled to maintain both temperature range and relative humidity! **Real wood veneer is not recommended for humid environments** (over 55% relative humidity).

HIGH-RESOLUTION WOOD VENEER IMAGES

- We have high-resolution scans of nearly two dozen additional species of veneer that we can print on any of our wallcovering substrates.
- Print the veneer alone to simulate the look of real wood, or use it as a background with one of our Level designs.
- Printed veneer images allow for the addition of metallic effects and greater color control regardless of the tone of the wood species.



Example of a custom geometric design printed on LWV3038 White Oak - Quarter Cut real veneer.

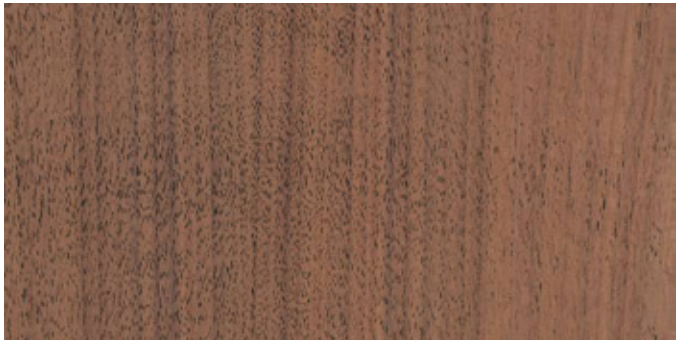
level

Real Wood Veneer Species

Flat sawn versions and additional species are available.

LWV3012 Silkwood Recon - Quarter Cut

LWV3038 White Oak - Quarter Cut



LWV3043 Walnut - Quarter Cut

Solid Colors

Solid color tints are available on both wood species, and custom colors are available.

Colors shown on LWV3038 White Oak - Quarter Cut. Actual production may vary in color and graining from the images shown. Printing on different species of wood will alter the appearance of these colors.

level

Window Film

Printed window films can be an effective way to infuse color and design into otherwise plain glass windows, partitions, and doors. In addition to their aesthetic appeal, printed films can also be used to add privacy, control light, improve way-finding, and more.

All of our window film products are printed on our high performance, scratch-resistant, optically clear polyester window film.

STANDARD REPEAT WINDOW FILM

- Standard Repeat Window Films are a curated selection of repeat-pattern designs meant to be installed horizontally across the glass.
- They are printed in either white ink or (only where indicated) in a frosted glass effect.
- Although not customizable as-is, custom options are available (ask your sales representative for details).
- Available in two standard sizes (no need to measure), sold by the roll:

  40" Tall x 120" Roll/Repeat

  59" Tall x 180" Roll/Repeat

WINDOW FILM MURALS

- Like our wallcovering murals, window film murals tend to be full height, "feature wall" applications, sized to your specifications.
- We offer a curated range of Level designs already featured on window film, but any design can be custom specified on window film.
- Custom colors are available as well as privacy options, stained glass effects, frosted effects, and more.
- Using our resources and print technologies to achieve your vision, we can help you create custom window film from scratch, or from your provided art.
- A variety of tools are available to help you create your custom window film. Ask your sales representative for details.
- **NOTE:**

  Specifying window film as a custom base material can alter the appearance of a design's colors and overall characteristics.

  Metallic effects are not available on window film products.

Acoustic

In need of sound control? Whether you're specifying a Level design or supplying your own artwork, we have an acoustic solution for you!

CUSTOM ACOUSTICAL PANELS

- Your design or solid color is dye-sublimated onto one of our acoustically transparent fabrics: Nexa, Cinderella, or La Panne. All fabrics are 100% polyester, printed with dye-sublimated inks and are NFPA-701 certified.
- The printed fabric is mounted and wrapped around a fiberglass acoustic panel.
- Acoustical panels are all sized to specifications.
- Custom shapes and stacked panels are available.
- Mounting hardware is available for both wall and ceiling applications.
- **NOTE:** While Cinderella fabric has a sateen luster, actual metallics and gloss effects are not available on acoustic panels.

STANDARD REPEAT ACOUSTICAL WALLCOVERING

- Standard Repeat Acoustic Wallcoverings are a curated selection of repeat-pattern designs printed via dye-sublimation on our Sibilance high performance acoustical felt.
- This product is installed directly to the wall, similarly to traditional vinyl wallcovering.

CUSTOM ACOUSTIC WALLCOVERING

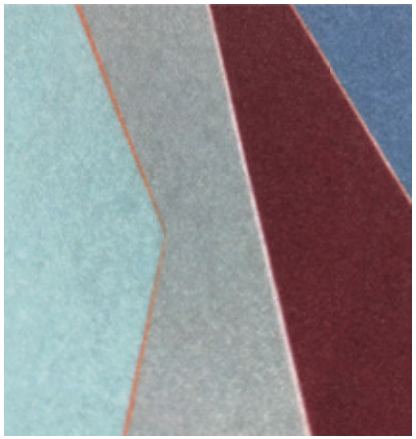
- Any design in the Level collection can be custom-specified on Sibilance high performance acoustical felt.
- This product is installed directly to the wall, similarly to digital vinyl wallcovering.
- Colors and scale can be customized.
- **NOTE:** Metallics and gloss effects are not available on acoustic wallcovering.

L14-0101 Vista - Autumn shown printed on Sibilance.

Example of custom design printed on Nexa and wrapped around acoustical panels.

FOR WALLCOVERING

Sibilance



Thick felt wallcovering

Used for all custom and standard repeat acoustical wallcoverings

100% recycled polyester

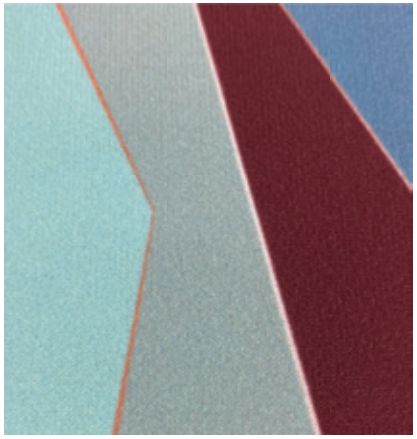
Provides an acoustically rated noise coefficient (NRC) of .20

Coated for maximum stain resistance and lightfastness

Easily installed using traditional wallcovering paste

FOR WRAPPING ACOUSTIC PANELS

Nexa



Thin lightweight fabric

Soft, brushed, cotton-like feel

Acoustically transparent; used to wrap around acoustically-absorptive fiberglass panels

100% polyester

NFPA-701 Certified

Cinderella

Thin lightweight fabric

Silky, high-luster sateen finish

Acoustically transparent; used to wrap around acoustically-absorptive fiberglass panels

100% polyester

NFPA-701 Certified

La Panne

Thin lightweight fabric

Rich, lustrous chenille fabric

Acoustically transparent; used to wrap around acoustically-absorptive fiberglass panels

100% polyester

NFPA-701 Certified

Try using a different fabric on alternating panels. The change in sheen can be used to make elements pop or to add depth and drama!

level

Custom coloration of L50608 Lindsey - Zest (from Series 5) printed on Nexa and wrapped around acoustical panels. Panels are custom-cut to follow the shapes in the pattern.

Beams are created with a high-resolution image of Walnut - Quarter Cut wood, printed on Nexa fabric, and wrapped around strips of acoustical panels fabricated into false beams.

Custom interpretation of L91906 Tangent - Safari (from Series 9) printed on Nexa and wrapped around acoustical panels. Panels are custom-cut to follow the shapes in the pattern, and stacked at various thicknesses.

Custom coloration of L92402 Whirl - Blueberry (from Series 9) printed on Nexa and wrapped around acoustical panels.

level

L14-0303 Cactus - Surreal Citrus shown printed on Targa panels.

Protect Your Walls

Protect your walls! Targa rigid wall protection panels absorb the impact from hospital gurneys, luggage carts, and more. Ideal for walls that are in high traffic areas.

Targa is a clear PETG sheet, .040" thick, with the image printed on the back side of the material, encapsulating it against the wall and protecting it from wear and abrasion.

These rigid panels absorb the impact from objects like hospital gurneys, luggage carts, and more, maintaining the integrity of the wall.

Any design in the Level collection can be specified with Targa as its base material.

Targa is available in both 4' x 8' & 4' x 10' sheets and is precision-trimmed at the factory. It can be installed with the panels butt-fitted together or with optional trim pieces available through Level.

NOTE: Gloss effects are not available on Targa.

Stain Resistant

Impact Resistant

Withstands Most Scratches & Gouges

Bacteria & Fungi Resistant

Easily Cleanable with a Wide Range of Cleaners

Class A Fire Rated

Meets CA 01350 Standard for Indoor Air Quality

Completely free of Phthalates, Both Halogenated and Bromated Fire Retardants (HFR & BFR), Persistent Bio-accumulative Toxins (PBT), Bisphenol-A (BPA)

Targa Cross-Section

L14-1004 Springtime Blooms - Summer Garden shown printed on Targa panels.
