Digital Wallcoverings
Reimagined

It's time to bring your ideas to life!

For over 25 years, we have been creating wallcovering solutions for commercial interiors with the power to transform even the most basic space into an experience.

What makes our projects most special is collaborating with you. You inspire us to help create stunning rooms and one-of-a-kind spaces that change the way we interact with our environment.

This book is dedicated to the artists, designers, architects, specifiers, and visionaries that continue to improve the space around us all and bring art into our everyday lives.

At a Glance

Did you know there are almost limitless ways you can customize with Level to create a one-of-a-kind digital décor experience?

- Custom Colors
- Shimmering Metallics
- Amazing Embosses
- Pop Gloss & WallFX
- Add Logos & Text
- Change Scale & More

And we offer endless options to achieve the functionality you need:

- Window Film
- Wood Veneer & Panels
- PVC-Free Options
- Wall Protection
- Gallery Wrapped Canvas
- Acoustics
- Walls, Ceilings, Furniture, & More

ECO Wallcoverings

Durable. Impactful. Environmental.

You don't have to sacrifice quality or creative expression for eco-friendliness. Our **ECO Wallcoverings** combine **UL GREENGUARD Gold Certified** inks with **Clean Vinyl Technology™** ("CVT") base materials. CVT materials replace chemicals typically found in vinyl wallcoverings with safe alternatives.

- LBC Red List Chemical Free
- Improved Indoor Air Quality
- Contributes to LEED v4 Low Emitting EQ 4.2
- EPD & HPD Documentation

Are ECO wallcoverings right for my project?

Let's find out! **Scan to view our EPD and HPD** to see if Eco Wallcoverings meet your environmental needs!

Wall Protection

Is Heavy Traffic Wrecking Your Walls?

We've got you covered with **Targa**.

Targa is a clear PETG sheet, .040" thick, with the **image printed on the back side** of the material, **encapsulating it** against the wall and protecting it from wear and abrasion.

These **rigid panels absorb the impact** from objects like hospital gurneys, luggage carts, and more, maintaining the integrity of the wall. It can be installed with the panels butt-fitted together or with optional trim pieces available through Level.

Any design in the Level collection can be **specified with Targa** as its base material!

Stain
Resistant

Easily
Cleanable
with a Wide
Range of
Cleaners

Withstands
Most
Scratches &
Gouges

Bacteria
& Fungi

Impact
Resistant

Class A
Fire Rated

Meets
CA 01350
Standard for
Indoor Air
Quality

Completely free of Phthalates, Both Halogenated and Bromated Fire Retardants (HFR & BFR), Persistent Bio-accumulative Toxins (PBT), Bisphenol-A (BPA)

Something to Consider

Since most **damage from luggage, gurneys, carts,** etc. is on the **lower half of the wall**, try Targa as a **wainscot** below chair rail height. Then **use ECO or vinyl above the chair rail** where there's less need for protection.

Mural: L17-2404 Wallflower - Quiet Garden
Targa (Below Chair Rail): L17-5102 Upscale Pattern - Greige

Targa is available in both **4' x 8'** & **4' x 10'** sheets and is **precision-trimmed** at the factory. It's an ideal solution for wall surfaces that are susceptible to damage in high traffic areas:

- **Hospitals & Medical Offices**
- **Restaurants & Dining Halls**
- **Hotel Elevators & Lobbies**
- **Schools & Universities**
- **Gyms & Fitness Centers**
- **Airports & Public Buildings**

Coordinating Products

Our extensive product line gives you incredible creative freedom! Try coordinating different products to address the needs of your entire space.

Glass partitions? Complement your mural on the glass with a coordinating design printed on **window film**.

Need sound control? Use **acoustic panels** with a mural design on top of a wall covered in a coordinating pattern.

Don't forget the ceiling – that's a great place to add some coordinating acoustics.

Or simply try using one of our embossed **repeat pattern designs below** a chair rail and a **mural design above** as shown here!

Mural (Above Chair Rail): L17-0403 Concrete Map - Green Space
Pattern (Below Chair Rail): L17-5002 Salvaged Pattern - Faded

Window Film (Left): L17-0404W Concrete Map - Iced Window Film
Pattern (Right): L17-5204 Classic Lindsey Pattern - Blush

Canvases: Custom Crops of L17-0604 Blueprinted - Deco

Looking for gallery
 wrapped canvas?
 We do that!

Window Film

What Do I Do About All the Glass?

If your space is full of **windows and glass partitions**, you know the importance of **safety markers, establishing privacy, controlling light**, and maybe even including some **wayfinding**.

Check out our **window film designs** for the perfect solution!

If you don't see what you're looking for, any Level design can be **specified on window film**.

TWIST  DRILL

• CLEVELAND •

Your colors.

WallMax

WallMax liquid laminate is our **optional proprietary coating** that **improves the durability and abrasion resistance** of digitally printed wallcoverings.

Uncoated vs. WallMax?

While no additional coating is required to protect your Level wallcovering, there are conditions for which WallMax is an ideal solution.

Level's Uncoated Wallcoverings...

- ...are the **industry standard**. Over 90% of the digital wallcoverings produced by our competitors are uncoated.
- ...meet or exceed all commercial scrubbability requirements.
- ...withstand **normal wear** and cleaning conditions.
- ...are colorfast and retain their appearance for many years.

Level Wallcoverings Coated with WallMax...

- ...feature **added** and unparalleled **abrasion and wear resistance**.
- ...are perfect **for high traffic areas** or for spaces that are subject to a lot of physical contact like waiting rooms, schools, gyms, and more.
- ...better withstand harsher and more frequent cleaning cycles like those found in medical offices.
- ...are a great option any time you want **added protection and insurance** against environmental abuse.

Note: WallMax is not recommended with Pop Gloss as it nullifies the gloss effect.

veneer!

High-End Look on a Budget

Check out our **high-resolution scans** of real wood veneer **printed** on any of our materials! A great budget option where real wood can't meet performance or durability requirements, like high-traffic areas.

Print the veneer alone or **use it as a background** with a Level design!

Add **metallic and pop gloss effects to your wood!**

Print on **acoustic panels to create faux wood beams** or dimensional faux wood panels where sound control is needed.

In tall spaces, use **wood veneer images in combination with real wood:** Real wood at eye level and veneer images up toward or on the ceiling.

Browse our
high-res wood
veneer images!

Acoustic Solutions

In need of sound control?

Let us solve it for you with custom acoustic panels.

Many options are available including panel materials, custom sizing, custom shapes, solid colors, and more.

Acoustic Panels: Custom Crops of L17-1104 Mod Geo - Classic Red

Great Idea:

Print one of our wood veneer images on **acoustic panels** to **create dimensional faux wood beams** where sound control is needed!

Mural: L17-1804 Teamwork - Lavender Field

Beams: Wood veneer image printed on acoustic panels, installed as faux beams.

How can we
help with
your acoustic
project?

Repeat Pattern Designs

Why specify a Level pattern?

Accent Wall on a Budget!

A **cost-effective alternative** to a full mural.

Large scale makes a **big impact on feature walls!**

Easy to specify - **sold by the yard.**

Affordable Custom Color!

Much **wider color range than rotogravure!**

100 sq. ft. minimum - a fraction of the time and cost of custom rotogravure!

Pair it With a Mural!

Makes a great **coordinate for a Level mural:**

Use a mural above a chair rail and a pattern below!

So Many Other Possibilities!

Build your own **custom wallcovering!**

Great for **ceilings & niches!**

Mix & match patterns, embosses, & print effects!

Go with a **mylar ECO base material** or add **pop gloss** for **stunning visual effects** that everyone will notice!

Look Up!

Omni-directional Repeat Pattern Designs like Atlas Pattern can be a great way to add artwork to ceilings!

Ceiling: L17-5301 Atlas Pattern - Blue Nova

Wall Obstructions?

Large wall obstructions like this screen can inhibit the effect of a big mural. Our Repeat Pattern Designs have just enough scale to feel like a feature wall, but their repetitive motifs play well with other objects on the wall.
