Digital Wallcoverings
Reimagined

It's time to bring your ideas to life!

For nearly 30 years, we have been creating wallcovering solutions for commercial interiors with the power to transform even the most basic space into an experience.

What makes our projects most special is collaborating with you. You inspire us to help create stunning rooms and one-of-a-kind spaces that change the way we interact with our environment.

This book is dedicated to the artists, designers, architects, specifiers, and visionaries that continue to improve the space around us all and bring art into our everyday lives.

ECO Wallcoverings

Durable. Impactful. Environmental.

You don't have to sacrifice quality or creative expression for eco-friendliness. Our **ECO Wallcoverings** combine **UL GREENGUARD Gold Certified** inks with **Clean Vinyl Technology™** ("CVT") base materials. CVT materials replace chemicals typically found in vinyl wallcoverings with safe alternatives.

- LBC Red List Chemical Free
- Improved Indoor Air Quality
- Contributes to LEED v4 Low Emitting EQ 4.2

Wall Protection

Is Heavy Traffic Wrecking Your Walls?

We've got you covered with **Targa**.

Targa is a clear PETG sheet, .040" thick, with the **image printed on the back side** of the material, **encapsulating it** against the wall and protecting it from wear and abrasion.

These **rigid panels absorb the impact** from objects like hospital gurneys, luggage carts, and more, maintaining the integrity of the wall. It can be installed with the panels butt-fitted together or with optional trim pieces available through Level.

Any design in the Level collection can be specified with Targa as its base material!

Something to Consider

Since most **damage from luggage, gurneys, carts, etc.** is on the **lower half of the wall**, try Targa as a **wainscot** below chair rail height. Then **use ECO or vinyl above the chair rail** where there's less need for protection.

Mural: L18-1802 Geo Wave - Beachy Pastels
Targa (Below Chair Rail): L18-5102 Lattice Geo Pattern - Beachy Blue

Targa is available in both **4' x 8'** & **4' x 10'** sheets and is **precision-trimmed** at the factory. It's an ideal solution for wall surfaces that are susceptible to damage in high traffic areas:

- Hospitals & Medical Offices
- Restaurants & Dining Halls
- Hotel Elevators & Lobbies
- Schools & Universities
- Gyms & Fitness Centers
- Airports & Public Spaces

Did you know?

Targa pricing includes all of the following:

- ✓ All Art Costs & Basic Customization Services
- ✓ Free Shipping to the Continental U.S.
- ✓ All Required Primer, Adhesive, Caulk, & Trowel

Coordinating Products

Our extensive product line gives you incredible creative freedom! Try coordinating different products to address the needs of your entire space.

Glass partitions? Complement your mural on the glass with a coordinating design printed on **window film**.

Need sound control? Use **acoustic panels** printed with a wood grain or pattern design to accent a Level mural.

Don't forget the ceiling – that's a great place to add some coordinating acoustics.

Or simply try using one of our embossed **repeat pattern designs below** a chair rail and a **mural design above** as shown here! 

Mural (Above Chair Rail): L18-1403 Meditation - Ocean
Pattern (Below Chair Rail): L18-5202 Scallop Geo Pattern - Ocean

Look Up!

Many Level designs are suited to interpretation as repeating patterns, making them perfect for large areas like this ceiling.

Mural: L18-1904 Wood Quilt - Wood Tones

WallMax

WallMax liquid laminate is our **optional proprietary coating** that **improves the durability and abrasion resistance** of digitally printed wallcoverings.

Uncoated vs. WallMax?

While no additional coating is required to protect your Level wallcovering, there are conditions for which WallMax is an ideal solution.

Level's Uncoated Wallcoverings...

- ...are the **industry standard**. Over 90% of the digital wallcoverings produced by our competitors are uncoated.
- ...meet or exceed all commercial scrubbability requirements.
- ...withstand **normal wear** and cleaning conditions.
- ...are colorfast and retain their appearance for many years.

Level Wallcoverings Coated with WallMax...

- ...feature **added** and unparalleled **abrasion and wear resistance**.
- ...are perfect **for high traffic areas** or for spaces that are subject to a lot of physical contact like waiting rooms, schools, gyms, and more.
- ...better withstand harsher and more frequent cleaning cycles like those found in medical offices.
- ...are a great option any time you want **added protection and insurance** against environmental abuse.

Note: WallMax is not recommended with Pop Gloss as it nullifies the gloss effect.
