

YOUR  
CUSTOM  
DIGITAL  
IMAGE

A custom, digitally printed wallcovering that is visual, magnetically receptive, and dry eraseable.

## DIGITAL-MAG 60

Digitally printable  
Magnetically receptive wallcovering

- Flexible polyester and ferrous metal core wallcovering
- Cellulose non-woven backing
- Neodymium magnet receptive
- Digitally printable smooth surface
- Commercial quality wallcovering
- 60" width on 50ft roll length is standard packaging
- Easy install with plyability even around corners and columns
- Sold individually or as a system with INFINITY dry erase coating
- On-site INFINITY application creates a seamless finish

### functional

- Three Ways to get the most out of DIGITAL-MAG
  - DIGITAL-MAG
  - DIGITAL-MAG-COATED
  - DIGITAL-MAG-CD + COATED
- Suitable for corporations, schools, universities, healthcare, and a multitude of visual applications

### convenient

- Determine your wall usage (print solid colour, images, logos, lettering, way finding, etc.)
- Choose your design option
- Choose your finish (coated/uncoated)
- Communicate your branding at every presentation
- Puts your feature walls to work

### durable

- Easy to maintain
- 10-year limited warranty
- Guaranteed not to delaminate or yellow over time
- Lightweight for a minimal carbon footprint

### warranty

DIGITAL-MAG is covered by a ten year limited warranty. This warrants that DIGITAL-MAG will be free from any defects in material or workmanship and meet the design criteria noted in our specifications when properly applied and installed per our recommended installation instructions. For more details on the DIGITAL-MAG warranty, please visit [WriteWalls.global](http://WriteWalls.global)

**Note:** For best results, Neodymium magnets are recommended for DIGITAL-MAG.
