Transform your entire Space

With the image printed on the reverse of the transparent co-polyester sheet, Matrix 4.0 Rigid Panels shield the image from abrasion and wear by encasing it against the wall. For walls and surfaces that are prone to damage in high traffic areas, it is the perfect solution. Matrix 4.0 Rigid Panels are truly a green building product that offers great versatility and design flexibility in addition to a strong, protective surface.

- Simple to clean with mild soap and water
- Long lasting and durable
- Shatter-resistant
- Chemical & stain resistant
- Anti-fungal effectiveness
- Excellent fire-rated architectural solution
- Manufactured from 50%+ recycled material
- Made in the USA

MATRIX 4.0 RIGID PANELS

Durable Surface Protects Graphics

The stain and impact-resistant surface protects the design against scratching, tearing, or water damage. Perfect for holding up to daily use.

A Truly Green Building Product

Matrix 4.0 Rigid Panels are free of PVC, BPA, and halogens, providing customers with an exceptional fire-rated architectural solution. Made from more than 50% recycled material, the smooth, fungi-resistant surface allows for easy cleaning.

Dimensionally Stable for Vertical & Horizontal Surfaces

Matrix 4.0 Rigid Panels create a customizable, stable surface for walls, floors, counters, tables, and more. Discover the perfect piece to make your good space great.
